

# **MMSR** update

Holger Neuhaus

MMCG Frankfurt 15 March 2016

## Where do we stand

#### On track!

Step	Date	Activity
Adoption of MMSR	26 Nov. 2014	Governing Council approval and published in Official Journal
Regulation and publication on the Official Journal	1 Jan. 2015	Regulation formally entered into force
Interaction with banking	December	Draft reporting instructions shared with banking industry and SWIFT as
industry on the Reporting	2014 – March	standard setter. Several meetings took place to get industry feedback.
Instructions	2015	
Notification of initial 53	End of March	Reporting Instructions to be frozen and distributed to reporting agents
reporting agents and freezing	2015/April	selected by the Governing Council on basis of end of 2014 balance sheet
of Reporting Instructions	2015	data
Further interaction with banking	April-July 2015	Getting "fatal flaw" comments and dummy data extractions from banks to
industry and Reporting Agents		finalise Reporting Instructions.
on reporting instructions and		Discuss feedback loop i.e. data to be returned to reporting agents
feedback loop		
Testing: mock-up data tests	Nov-Dec 2015	Individual feedback to reporting agents finalise but the test is over now
Development phase	April 2015 to	A list of frequently asked questions and answers will be made available
	March 2016	Constant dialogue with NCBs and reporting gents to answer pertinent
	March 2016	queries and questions.
Testing: connectivity and	Jan/Mar 2016	Banks an test connectivity to reporting platforms and send files
analytical module		Analytical module developed and tested
Start-up period	April-July 2016	Progressive transition to full reporting on 1/7/2016!

Status as of end March 2016

### The period between December 2015 and March 2016

Testing of the 2 modules currently:

1) Transactional module where banks send their reports

\* Connectivity works for almost all banks

- \* Still a couple of banks missing will be ready by 1 April
- \* Backflow messages on acknowledgement of files

quality feedback

2) Analytical module where we aggregate data

- \* Development phase was completed in February
- \* Test of various components is ongoing
- \* Results satisfactory: results for main reports are correct
- \* Correction of bugs and errors ongoing
- \* Progressive delivery of additional reports

## Where do we stand

Conclusion:

- All banks will start reporting in April
- A significant fraction of banks will start reporting on all segments daily as of 1 April
- Others will progressively report on initial segments (most of the time OIS and FX swaps) during the transition period until June
- On 1 July all segments will be reported daily by the 52 banks
