Ν	Page	Subsection	Original Text	Comment	Status	Feedback to CG
1	13	2.3 Overview of the graphical user interface		We suggest to insert a sentence in the end of paragraph: "Outbound liquidity transfers are instead allowed based on the operating times of the respective RTGS"	Clarification	No specific feedback to be provided to the CG.
2	15	2.3.2.2 Screen Structure	Table 1 - GUI screen elements: Menu barpresents the four main menu items andallows you to navigate to the screens.	Main menu items are five and not four (see paragraph 2.3.2.1)	Accepted	No specific feedback to be provided to the CG.
3	15	2.3.2.2 Screen Structure	Screens descriptions	In 2.3.2.3 "you" is replaced by "users". Same should be done in this paragraph. As done in the previous sections, please insert the following	Accepted	No specific feedback to be provided to the CG. No specific feedback to be
4	38	4.3 Limit management	available for a CMB. It is the sum of the utilisation (amount of cash used for that CMB) and the headroom (amount of cash	sentence: "Limit management functions are also available, with non-immediate effect, in the CRDM; any change that is propagated from the CRDM to TIPS does not overwrite these values if they have been changed within TIPS via an immediate	Accepted	provided to the CG.
5	13	2.3 Overview of the graphical user interface	Table 1	The transaction status query is missing	Clarification	No specific feedback to be provided to the CG.
6	20	3.1 TIPS actors	Similarly, legal relationships exist between each party belonging to the second level (i.e. a Central Bank) and all of its community (i.e. Participants and Reachable Parties).	In our understanding there is no legal relationship between CB	Accepted	No specific feedback to be provided to the CG.
7	21	3.1.3 Participant	They can manage CMBs linked to their own accounts as well as Instructing Party Privileges for Actors acting on behalf of themselves or of Reachable Parties defined as users of their accounts or CMBs	Clarification: We understood that a reachable party can only be a CMB user and not an account user also as reported in the	Clarification	No specific feedback to be provided to the CG.
8	26	4.1 Queries	Each query may be available in A2A mode and/or U2A mode.	Please modify because the transaction status query will be	Clarification	No specific feedback to be provided to the CG.
0	35	4.2.3 CMB Blocking	The operations can be carried out by an authorised user of the Central Bank of the TIPS Actor holding the relevant Account, by an authorised user of the TIPS Actor holding the Account or by an authorised user of the	Clarification: Istructing party can modify the limit of the CMB. Is	Accepted	No specific feedback to be provided to the CG.
9	13	2.3 Overview of the graphical user interface	We suggest to insert a sentence in the end of paragraph: "Outbound liquidity transfers are instead allowed based on the operating	Comment already presented in the previous draft, accepted but		No specific feedback to be provided to the CG.
10	15	2.3.2.2 Screen Structure	times of the respective RTGS" Screen Descriptions: In 2.3.2.3 "you" is replaced by "users". Same	not reported in this current version of the UHB yet Comment already presented in the previous draft, accepted but	Clarification	No specific feedback to be provided to the CG.
11	20	3 Initial setup	should be done in this paragraph. Note 4: The reference data of T2 and T2S is	not reported in this current version of the UHB yet We suggest to delete "until the approval of the relevant CR674." because the reader of the TIPS UHB is not aware of a CR674 which is a T2S CR and also because after the deployment of	Accepted	No specific feedback to be provided to the CG.
12			not part of CRDM for the time being, until the approval of the relevant CR674. In order to allow the transfer of liquidity from	CR674 the reference data of T2 and T2S will not be part of CRDM	Accepted	No specific feedback to be
13	20	3.1.2 Central Bank	TARGET2 to TIPS and viceversa, a single Transit Account must exist in TIPS.		Accepted	provided to the CG.
14	30	4.2.1 Participant Blocking	any change that is propagated from the CRDM to TIPS does not overwrite these values if they have been changed within TIPS via an immediate change.	The consolidated feedback to our previous comment states that "Any detail about the behaviour of CRDM and the propagation of data to TIPS will be clarified with the CRDM documentation". We believe that the alignment of reference data between CRDM and TIPS should be appropriately described also in TIPS UHB.	Pending	No specific feedback to be provided to the CG.
15	33	4.2.2 Account Blocking	The blocking status of an Account is not taken into account in case the Party holding the account is blocked.	In this case "Party" may be substituted with "Participant".	Accepted	No specific feedback to be provided to the CG.
16	40	4.3.1.2 CMB Limit Modification – Modify Limit screen	Table: Limit Value and Unlimited Value	Why "leaving the value blank means that the CMB will have no limit"?. You already have "a dedicated checkmark in case the	Accepted	No specific feedback to be provided to the CG.
17	44	4.5.1.2 Task List – Details Screen	This screen contains a number of fields regarding the Action Awaiting approval.	Why only the Actions Awaiting approval are taken into	Clarification	No specific feedback to be provided to the CG.
18	15	2.3.2.2 Screen Structure	Table 1 - GUI header elements, row 3: presents the four main menu items and allows you to navigate to the screens	According to paragraph 2.3.2.1 there are now five first-level menu items, so, please replace 'four' by 'five'.	Accepted	No specific feedback to be provided to the CG.
19	16	2.3.2.3 Field types and properties	Field Properties Following the SEPA Instant Credit Transfer specifications, the allowed character (for Identifiers/reference data elements) set is restricted to support the Latin characters which are commonly used in international communication.	"Following the written procedure launched after the 4th TIPS- CG, the character set for pacs messages was enlarged to UTF- 8, with the only exceptions already envisaged by the SCT Inst scheme on references and identifiers." Now that the character set has been enlarged to UTF-8 for pacs messages, we kindly ask you to raise a CR to also support the UTF-8 character set in the GUI.	Clarification	No specific feedback to be provided to the CG.
20	17	2.3.3 Validation	You can find a detailed list of all error messages and their description in the annex of the UHB (list of references for error messages).	When is this annex expected to be ready?	Clarification	No specific feedback to be provided to the CG.
21	22	3.2.2 Credit Memorandum Balance	Credit Memorandum Balances (CMBs) represent a credit limit defined for a Reachable party in TIPS.	Please add the abbreviation 'CMB' to the section 'Terms and Abbreviations'.	Accepted	No specific feedback to be provided to the CG.
22	24	3.4.2 Roles	CBs can configure specific roles to be granted to their own Participants and Reachable Parties, in order to grant them with proper access to functions.	Please add the abbreviation 'CB' to the section 'Terms and Abbreviations'.	Accepted	No specific feedback to be provided to the CG.
23	25	4 Screen reference guide	The GUI will be typically used to perform changes to local reference data that need to have immediate effect and to query the status of the accounts and the CMBs.	Suggestion to add: 'and to initiate Outbound Liquidity Transfers'.	Accepted	No specific feedback to be provided to the CG.
23	25	4 Screen reference guide		The instruction can also relate to an Outbound Liquidity Transfer. In that case there is no change of local reference data.	Accepted	No specific feedback to be provided to the CG.
25	26	4.1 Queries	Access for Instructing parties is even further restricted to those accounts which they are permitted to instruct or on transactions they have submitted.	We kindly ask you to raise a CR for URD TIPS.UR.07.040: Instructing party on behalf of a Participant can only query "Transaction they submitted", as Instructing parties also need to	Rejected	No specific feedback to be provided to the CG.
26	28	4.1.2 Query CMB limit and Status	The CMB limit and status query allows the authorised actor to get the detailed information for one CMB. TIPS does not foresee the usage of wildcards, therefore only one CMB per search can be retrieved.	We kindly ask you to raise a CR for URD TIPS.UR.07.070: TIPS shall provide a TIPS actor with the possibility to query the current limit and the status of one of their CMBs in order to allow the use of wildcards in the search screen since		No specific feedback to be provided to the CG.
27	32	4.2.1.2 Participant Blocking – Change Status Screen	Screen Access  Blocking >> Participant Blocking >> Click on the New button >>	Doesn't the user need to click on the 'Change status' button? If so, please update the Screen Access flow.	Accepted	No specific feedback to be provided to the CG.
28	34	4.2.2.2 Account Blocking – Change Status Screen	Screen Access  Blocking >> TIPS Account Blocking >> Click on the New button >>	Doesn't the user need to click on the 'Change status' button? If	Accepted	No specific feedback to be provided to the CG.
29	39	4.3.1.1 CMB Limit Modification – Search screen	This screen contains the ID of the CMB whose Blocking status has to be changed as the only available search field. CMB Number max. 34 characters (SWIFT- x)	We kindly ask you to raise a CR for URD TIPS.UR.07.070: TIPS shall provide a TIPS actor with the possibility to query the current limit and the status of one of their CMBs in order to allow the use of wildcards in the search screen since	· · ·	No specific feedback to be provided to the CG.
25			Screen Access			No specific feedback to be

			The CMB limit can be modified	Does the rule for changes in CRDM,		No specific feedback to be
31	38	4.3 Limit management	independently as a reference data update directly in TIPS (although the service is available also on the CRDM), which leads to the headroom being recalculated accordingly.	'any change that is propagated from the CRDM to TIPS does not overwrite these values if they have been changed within	Pending	provided to the CG.
	38	4.3.1 CMB Limit modification	Limit update is also available, with non-	Does the rule for changes in CRDM, 'any change that is propagated from the CRDM to TIPS does not overwrite these values if they have been changed within TIPS via an immediate change' also apply for CMB limit changes?		No specific feedback to be provided to the CG.
32			immediate effect, in the CRDM.	If so, please add it to this paragraph.	Pending	
33	40	4.3.1.2 CMB Limit Modification – Modify Limit screen		What's the difference between 'leaving the value blank means that the CMB will have no limit' and the checkbox 'Unlimited' (Object Unlimited value) in the same screen? Now, it's not clear for the user which field to user in case the CMB must have no limit / must be unlimited.	Accepted	No specific feedback to be provided to the CG.
34	43	4.5.1.1 Task List – Search/List Screen	This screen contains the Action type and the 4-Eyes identification to be used together as the only available search fields.		Accepted	No specific feedback to be provided to the CG.
	43	4.5.1.1 Task List – Search/List Screen				No specific feedback to be
35	43	4.5.1.1 Task List – Search/List Screen	Field description, action type, Update Limit	Please replace 'Update Limit' by 'Update CMB Limit'.	Accepted	provided to the CG. No specific feedback to be
36	43	4.5.1.1 Task List – Search/List Screen	Field description, action type, Outbound LTO	Please replace 'Outbound LTO' by 'Outbound Liquidity Transfer'.	Accepted	provided to the CG. No specific feedback to be
37			Field description, object identifier	The possible value 'All' is missing. Please add it to the list.	Clarification	provided to the CG. No specific feedback to be
38	47	5.2.1 Blocking/Unblocking of Participants	4. Click on the New button	Please replace 'New button' by 'Change status button'.	Accepted	provided to the CG.
39	48	5.2.2 Blocking/Unblocking of Accounts	Instructions 4. Click on the New button	Please replace 'New button' by 'Change status button'.	Accepted	No specific feedback to be provided to the CG.
40	48	5.2.3 Blocking/Unblocking of CMBs	Instructions 4. Click on the New button	Please replace 'New button' by 'Change status button'.	Accepted	No specific feedback to be provided to the CG.
41	49	5.2.4 CMB Limit Modification	Instructions 4. Click on the Edit button	Please replace 'Edit button' by 'Modify limit button'.	Accepted	No specific feedback to be provided to the CG.
41			Instructions		Accepted	No specific feedback to be
42	50	5.4.1 Task List confirmation/Revoking		According to paragraphs 4.5.1.1 and 4.5.1.2 the user has to click on 'Details' first before he can choose 'Approve' or 'Revoke'. Please align.	Clarification	provided to the CG.
	26	4.1 Queries		In this version of the UHB all sections on 'Query Instant Payment transaction' have been removed. However, it must always be possible for all TIPS Actors to query Instant Payments transactions. Please raise a CR to include the 'Query Instant Payment transaction' functions in the TIPS GUI (and in		No specific feedback to be provided to the CG.
43	27	4.1.1.2 Query account balance and status – Details screen	page 28 field description/timestamp of the	the UDFS and UHB accordingly). Throught the whole document whenever there is a timestamp it is said to have the format DD-MM-YYYY, but in the screenshots provided where one appears, they are all formatted YYYY-MM-	Rejected	No specific feedback to be provided to the CG.
44	17	2.3.3 Validation	reported balance/ Format Digital signature-NRO , the user will be asked to enter a PIN code for signature	DD Does the user establish his/her own PIN code or will it be	Accepted	No specific feedback to b provided to the CG.
45			purposes Page 35 "Blocking/Unblocking status are	automatically provided? Is this PIN modifiable?	Clarification	No specific feedback to b
46	35	4.2.3 CMB Blocking	also available, with non-immediate effect, in the CRDM; any change that is propagated from the CRDM to TIPS does not overwrite these values if they have been changed within TIPS via an immediate change."	Can an actor block a CMB directly in TIPS and then unblock in the CRDM or it can only be unblocked in TIPS as the block was input there? Or after propagation/synchronisation in either of the two the unblocking can be executed?	Pending	provided to the CG.
47	20	3.1 TIPS actors	legal relationships exist between each party belonging to the second level (i.e. a Central Bank) and all of its community (i.e. Participants and Reachable Parties)	Could you clarify the legal relationship expected between an NCB and a reachable party ? Considering the fact that a reachable party is considered as an Addressable BICs, we don't think that there is a legal relationship between reachable parties and Central Banks	Accepted	No specific feedback to be provided to the CG.
48	20	3.1.2 Central Bank	In order to allow the transfer of liquidity from TARGET2 to TIPS and vice versa	we suggest to replace TARGET2 by RTGS : "In order to allow the transfer of liquidity from RTGS to TIPS and vice versa"	Accepted	No specific feedback to be provided to the CG.
49	40	4.3.1.2 CMB Limit Modification – Modify Limit screen	Field description limit value : In case the actor inserts a Limit that is identical to the Current Limit, an error message appears	Why the system does not prevent the user to set a limit and to check the « unlimited value » radio button ?	Accepted	No specific feedback to be provided to the CG.
50	41	4.4.1.1 Outbound Liquidity Transfer - New screen	Field description : debtor TIPS account	Is it foreseen to fill-in, by default, this field with a DCA linked to the debtor BIC ? If not, will you check the consistency between this field and the debtor BIC before the LT submission ?	Clarification	No specific feedback to be provided to the CG.
30	41	4.4.1.1 Outbound Liquidity Transfer - New screen		Is it foreseen to fill-in, by default, this field with a RTGS account linked to the creditor BIC ? If not, will you check the consistency between this field and the creditor BIC before the LT submission		No specific feedback to b provided to the CG.
51		4.4.1.1 Outbound Liquidity Transfer -	Field description : creditor RTGS account	?	Clarification	No specific feedback to be
52	41	New screen	Field description : internal reference	Will you fill-in by default this field ?	Clarification	provided to the CG.
53	43	4.5.1.1 Task List – Search/List Screen	Context of usage, last sentence	The end of the sentence is missing : "The search results will be displayed in a list, which is sorted by the values of the"	Accepted	No specific feedback to be provided to the CG.
54	44	4.5.1.2 Task List – Details Screen	Field description : limit value	The unlimited radio button shall also be displayed	Accepted	No specific feedback to b provided to the CG.
	16	2.3.2.3 Field types and properties		It should be mention that SCT inst scheme allows participants to have agreements in order to exchange additional characters. Following the consultation of the TIPS contact group, and in order to be able to accept those transactions with additional characters, the allowed character set in TIPS will be extended to UTF8 (with exception for references, identifications and		No specific feedback to b provided to the CG.
55	9	1.2.2 Common Reference Data Management	Table 2 : TIPS character setTable 1 Responsible Actors for CRDMactionsT2S Dedicated Cash Account	identifiers) Shouldn't it be TIPS Dedicated Cash Account?	Accepted Accepted	No specific feedback to b provided to the CG.
	9	1.2.2 Common Reference Data Management	The Common Reference Data Management (CRDM) is a centralised and harmonised	The last part of the sentence needs to be updated for the following reasons: CRDM will never be a component used by TARGET2 as TARGET2 as we have it today will no longer exists when the consolidation goes live. It is misleading to mention T2S as so far T2S does not use		No specific feedback to b provided to the CG.
57			TARGET2 and T2S.	CRDM but SDMG for static data management.	Accepted	
58	9	1.2.2 Common Reference Data Management	CRDM UHB."	The character after the full stop seems superfluous.	Accepted	No specific feedback to b provided to the CG.
59	9	1.2.2 Common Reference Data Management	Table 1 – Responsible Actors for CRDM actions	Please check whether the table is complete as the subscription for the TIPS directory (see list of participants in the TIPS URD, section 9.2) is missing.	Pending	No specific feedback to b provided to the CG.
	9	1.2.2 Common Reference Data Management	Table 1 - Responsible Actors for ODDM	How does this table which refers to "all reference data management operations" fit to the one provided in the draft CRDM UDFS where also the following objects are listed: Role User Link Role Party Link Privilege Role Link		No specific feedback to b provided to the CG.
60			Table 1 – Responsible Actors for CRDM           actions	Privilege Role Link	Accepted	
00		1	1	It should be possible that the CMB, Limit, and Authorised	1	No specific feedback to be

						No specific feedback to be
	13	2.3 Overview of the graphical user interface		The Payment transaction status query needs to be added again. Comment also refers to chapter 4.1. Please also take into account the comments received during the consultation of UHB v.0.3 which have been answered with "As agreed with the Contact Group, the Payment Transaction Status Query will not be available". Since it has been decided to keep		provided to the CG.
62			Table 1	the U2A query, the comments need to be considered. Tablename should be !2!.	Clarification	
63	15	2.3.2.2 Screen Structure	Similar to the details screens, you can only access the enter screens through other screens	Which "other screen" do I have to use in case of entering an outbound LT? This is unfortunately not clear to us.	Clarification	No specific feedback to be provided to the CG.
64	15	2.3.2.2 Screen Structure	Table 1 – GUI header elements	Table nummeration wrong Should be Table 3	Accepted	No specific feedback to be provided to the CG.
65	16	2.3.2.3 Field types and properties	Field properties You can find a detailed list of all error	Please take into consideration, that the UDFS have been changed and TIPS is now using UTF-8 for certain fields.	Clarification	No specific feedback to be provided to the CG. No specific feedback to be
66	17	2.3.3 Validation	messages and their description in the annex of the UHB (list of references for error messages).	So far, there is no annex mentioned in the table of content. When will this annex be included?	Clarification	provided to the CG.
67	17	2.3.3 Validation	Data Changes - Details screen [} ].	What exactly is meant with "Data changes"? In the section "Screen reference Guide" a screen called "Task List" is mentioned. Do you mean this screen?	Accepted	No specific feedback to be provided to the CG.
68	17	2.3.3 Validation	Digital Signature-NRO; last screen in the NRO feature list: Data Changes-Detail screen	In all the other chapter the screen for 4-eyes mode is called "task list" screen. To be consistent, the detail screen should be the task detail screen.	Accepted	No specific feedback to be provided to the CG.
69	20	3 Initial setup	The CRDM allows users to setup and maintain reference data that is shared by multiple Eurosystem services such as TIPS, T2 and T2S and propagates such data to the relevant services Footnote 6:The reference data of T2 and T2S is not part of CRDM for the time being, until the approval of the relevant CR674.	See our comment above. The description with regard to T2S and T2 is misleading and needs to be updated. The aim of T2S CR 674 was not to include the T2 reference data in CRDM. The T2S CR has been authorised at steering level in the meantime. The aim of T2S CR 674 is: "Owing to the tight timeline of the TIPS project and in order to avoid developing an ad hoc, throw- away reference data management component only for the interim period between the go-live of TIPS and the availability of the fully-fledged CRDM, the idea is to develop by November 2018 only a CRDMTIPS component, covering only the functional scope of the TIPS reference data, and to deliver the full scope of CRDM in line with the T2-T2S Consolidation project, i.e. in 2021" https://www.ecb.europa.eu/paym/t2s/progress/pdf/crg/t2s_0674 _sys.pdf		No specific feedback to be provided to the CG.
70	21	3.1.3 Participant	They are identified by a BIC11 in TIPS and hold TIPS Accounts, which cannot have a negative balance.	With regard to the BIC11 mentioned, please be so kind as to clarify that in order to allow a given financial institution to be defined as two different TIPS parties (by the same Central Bank or by two different Central Banks), the same financial institution must be defined in the CRDM repository as two parties identified by two different 11-character BICs.		No specific feedback to be provided to the CG.
71	21	3.1.3 Participant	Participants shall hold TIPS Accounts, which	Based on the information provided here, it is not clear whether the term "instant payment transactions" does include positive	Accepted	No specific feedback to be provided to the CG.
72	21	3.1.4 Reachable Party	Reachable Parties are also identified by a BIC11, but they cannot hold TIPS Accounts and rely on a Participant's account to settle payments in TIPS	The sentence needs to be updated. There might be reachable parties which cannot open an TIPS DCA. However, there might also be reachable parties who in theory are able to open an TIPS DCA but prefer to be a reachable party.	Clarification	No specific feedback to be provided to the CG.
73	21	3.1.4 Reachable Party	Participants can set CMBs on their accounts.	Why is this mentioned here and not in the section describing the participant?	Accepted	No specific feedback to be provided to the CG.
74	21	3.1.5 Instructing Party	Third parties, not necessarily being a TIPS Participant or a Reachable Party, can act as Instructing Parties on behalf of other Participants or Reachable Parties,	From a legal point of view we understand that all actions are on behalf of the TIPS DCA account holder.	Clarification	No specific feedback to be provided to the CG.
	21	3.1.4 Reachable Party	Reachable Parties are also identified by a	If a bank is eligible for participation, but does not want to open its own TIPS account and instead settles on another bank's TIPS account - will this bank also be classified as a Reachable Party? If yes, the definition "cannot hold TIPS Accounts" is not correct. If on the other hand, this bank is classified as a Participant, the definition under 3.1.3. ("They are identified by a BIC11 and hold TIPS accounts") is not correct. If the bank is neither a Reachable Party (because it CAN hold a TIPS account) nor a Participant (because it DOES NOT hold a TIPS account) - then how do you call this bank? In T2 that would be an indirect participant, but we have not seen this type of participation in the TIPS documentation so far.		No specific feedback to be provided to the CG.
75	23	3.3 Users	BIC11, but they cannot hold TIPS Accounts. A system user can be either a party administrator or a standard user. The party administrator is a special user that is able to assign Privileges to the other users of its party.	Question for clarification: In case the party administrator of a participant is granted certain roles, it seems that the party administrator still can grant single privileges to ist users. Is this understanding correct?	Clarification	No specific feedback to be provided to the CG.
	26	4.1 Queries		It seems that the query "Payment Transaction Status Query" is missing. Will a query for Liquidity Transfers be added?		No specific feedback to be provided to the CG.
77	26	4.1 Queries	Access for Instructing parties is even further restricted to those accounts which they are permitted to instruct or on transactions they have submitted	We have seen your reply to comment no 82 in the consultation of v.0.3 and do not think that this is a satisfactory result. It is true that the URD only mention the submitted transactions explicitly. However, when acting as an instructing party on the beneficiary side, it must be possible to give them the privilege to query on behalf of the beneficiary participant.	Clarification	No specific feedback to be provided to the CG.
	29	4.1.2.2 Query CMB limit and status – Details screen	TIPS participant Shows the BIC of the CMB user	Taking into account the information provided in the TIPS UDFS ("Participants represent entities that hold one or more than one TIPS Accounts."), it is unfortunately not entirely clear who is meant here with "TIPS participant". The account holder or the reachable party or both? It seems that the term "TIPS participant" is not always used in the same way. Please check.	Clarification	No specific feedback to be provided to the CG.
79			Blocking/Unblocking status are also available, with non-immediate effect, in the	Question for clarifcation: In case I have blocked an TIPS DCA for debits in TIPS directly this means that in case of unblocking it is not sufficient to update CRDM accordingly, I always need to update the local		No specific feedback to be provided to the CG.
79	30	4.2.1 Participant Blocking	CRDM; any change that is propagated from the CRDM to TIPS does not overwrite these values if they have been changed within TIPS via an immediate change.	reference data as well. So in such scenario, the daily data propagation will be "ignored". Is this understanding correct?	Pending
