Billing Processes – H2 2021

Spanish NSG

The Single Collateral Management Rulebook for Europe (SCoRE) contains four Standards related to billing processes (published as the [SCoRE Standards for Billing Processes](#)). Implementation progress is monitored twice per year. This summary report presents the results of the H2 2021 monitoring exercise conducted by the Spanish NSG with the involvement of the following stakeholders:

- 1 CSD – Iberclear
- 13 Custodians

14 entities are monitored in the Spanish market

The SCoRE Overview provides a high-level summary of the H221 monitoring exercise.

 <small>SINGLE COLLATERAL MANAGEMENT RULEBOOK FOR EUROPE</small>	 Response Rate	 Implementation Status	 Milestones achieved?	 Implemented on Time?
Custodians	85%	Implemented 21.5% Analysis started 30.7% Implementation started 12.3%	15%	69%
CSD - Iberclear	100%	Implemented 60% Analysis started 40% Implementation started 0%	No	Yes

Note: Implemented on time reflects the entity's expected ability to achieve the final milestone on time.

This NSG summary report is structured as follows: The Executive Summary provides an overview of the responses received per Entity Type i.e. CSD, TPA, Custodian etc. Section 1 presents the compliance status of each entity type. Section 2 provides an overview of the progress against the individual milestones. Section 3 then provides a more detailed overview of the implementation status per Standard for each entity type.

Executive Summary

The Spanish NSG members confirm that implementation of Billing Processes Standards under the AMI-SeCo agenda is on track

The majority of the entities participating in the Spanish AMI-SeCo NSG reported their progress under the monitoring framework. The results of the survey in H2 2021 confirm that implementation of the Billing Processes Standards already started and is confirmed in most of the adaptation plans of the NSG entities. An average of 25 percent of standards are declared as implemented. For the remaining standards the work already started and is either under implementation or under analysis.

CSD - Iberclear

CSD – Iberclear commits itself to comply with all SCoRE Standards for Billing Processes on time

Iberclear confirms the plan to implement Billing Processes Standards according to the AMI-SeCo agenda. The commitment from the CSD with the plan is reflected with 60% of the answers to the questionnaires as already implemented. Accordingly, two of the Billing Processes Standards are already implemented with blue status. For the remaining two, although implementation could be achieved with slight delays, no specific issues have been identified and they are given yellow status. Overall, the CSD confirms good progress to meet all the milestones.

Custodians

Most Spanish AMI-SeCo NSG custodians confirm their commitment to fulfil SCoRE Billing Processes Standards

All the Spanish AMI-SeCo NSG custodians are included under the monitoring framework. The 85% response rate to the H2 2021 Billing Processes Standards questionnaires confirms the commitment of the Spanish community with the AMI-SeCo agenda. Although some milestones could suffer from slight delays, the majority of the custodians in the Spanish community confirm their expectations to meet all the milestones according to the plan agreed in the AMI-SeCo group.

1 SCoREBOARD

This section presents the overall compliance status in the market. CSDs and TPAs are monitored on an individual basis and are assigned a colour-code status in accordance with the methodology outlined in Box 1¹. Custodians are monitored on an aggregated basis and assigned a percentage compliance status.

Box 1 SCoREBOARD – Implementation Phase

- The Standard has been implemented
- Implementation of the Standard is on schedule (based on the agreed milestones)
- Implementation is behind schedule (based on the agreed milestones)
- Implementation has not started

For custodians, progress is monitored and reported as a percentage; for example the % of custodians in a given market who have started internal adaptation of IT systems.

Table A
SCoREBOARD

STANDARD	Custodians	CSD - Iberclear
1: ISO 20022 messaging	62%	Y
2: Billing cycles	85%	B
3: Cut-off date	46%	B
4: Dates for payments fees	69%	Y

Notes:

- For CSDs and TPAs the colour-code reflects the current implementation status of each Standard in accordance with the methodology outlined in Box 1 above.
- For custodians the % indicates that the standard has either already been implemented, or that implementation is on track i.e. at a minimum that analysis has already started or that implementation has started per Standard.
- Percentages are calculated on the basis of expected respondents, i.e. number of entities monitored in the market.

Milestones expected to be achieved in the current reporting period are highlighted in blue in the header of Table B below. The blue colour-code is then assigned to those milestones which have been successfully achieved to date for each respective entity. Milestones which will only be achieved later are assigned a yellow status, while milestones which will only be achieved with significant delays / where work has not yet commenced are marked in red.

For the remaining milestones (i.e. milestones due to be achieved only after the current reporting cycle) the colour-code indicates an entity's expected ability to achieve a future milestone on time. The expected date of achievement is also indicated in the table if it is different to the milestone date defined by AMI-SeCo.
