

Update of trade weights data underlying the EERs and HCIs

The trade weights underlying the calculation of the effective exchange rates (EERs) of the euro and the harmonised competitiveness indicators (HCIs) of the euro area countries have been updated to reflect recent developments in the pattern of international trade.

The updated trade weight data are available in the ECB Data Portal:

<https://data.ecb.europa.eu/data/categories/balance-payments-and-other-external-statistics/external-trade-goods/trade-weights>

The update includes revisions from 1995 and an extension of the data coverage up to 2021, by adding the latest three-year period 2019-2021.

More background information on the methodology used to compile the data is available at:

<https://data.ecb.europa.eu/data/datasets/EXR/data-information>

Furthermore, the EERs of the euro and other trading partners' currencies as well as the HCIs of the euro area Member States were revised to incorporate the information from the updated trade weights:

<https://data.ecb.europa.eu/data/categories#effective-exchange-rates>

Table 1 reports the trade weights underlying the EERs of all reporting areas listed in the row vis-à-vis the trading partners in the column.

Table 2 reports the trade weights underlying the HCIs of each euro area country vis-à-vis all other euro area countries and a further 41 non-euro area partners.

**Table 1 – Trade weights of the EER-41 for each trading partner’s currency and the euro in the period 2019-2021
(percentages; reporting countries in the columns, partner countries in the rows)**

<i>Codes for currency of transaction</i>	<i>Description</i>
E01	Narrow EER group of trading partners (fixed composition): “EER-12”
E02	Extended EER group of trading partners (fixed composition): “EER-18”
E03	Broad EER group of trading partners (fixed composition): “EER-41”
H00	Euro area countries (fixed composition)
H01	Euro area countries and narrow EER group of trading partners (fixed composition): “Euro area countries and EER-12”
H02	Euro area countries and extended EER group of trading partners (fixed composition): “Euro area countries and EER-18”
H03	Euro area countries and broad EER group of trading partners (fixed composition): “Euro area countries and EER-41”

Example of a trade weight series key in the Statistical Data Warehouse (SDW)

Position	1	2	3	4	5	6	7	8	9
	Prefix	Frequency	Geographic area	Counterpart area	Currency of transaction	Area definition	Weight in trade flows	Product breakdown	Series denomination
Series key	WTS	A	DE	AU	E3	I9	O	MAN	F
Description	Frequency: annual; geographic area: Germany; counterpart area: Australia; currency of transaction: broad EER group of trading partners (fixed composition): “EER-41”; area definition: euro area (Euro area-20) (fixed composition); weight in trade flows: overall weight; trade product breakdown: manufactured products (SITC 5 to 8); series denomination: percentage
